Ashley Scott (above) has gone from short to long, brunette to blonde and does it with great style. On CBS' *Jericho*, it's long blonde curls styled just right.

**\*how to get the look:** After blow-drying mane with a round brush for volume, hair is sectioned off and curled with a curling iron, wrapping sections around the outside of the barrel to form spirals. Ringlets are then gently picked through with the tail of a comb to separate.
